NasalClear® Clear stuffy noses FAST!™

[See Detailed Views](#)

NasalClear® is a new battery operated nasal aspirator. It quickly, easily, and safely clears your baby's stuffy nose and helps her breathe more freely. The NasalClear® aspirator provides you with suction that is stronger than that of a traditional manual aspirator, yet gentle enough to use safely and comfortably on your newborn or toddler. Battery operation lets you control the suction, so that you maintain the suction or release it as needed.

NasalClear® operates on 2 AA batteries and includes 2 different tips to accommodate different shaped nostrils and a variety of congestion conditions. The tips are made of soft silicone, making them comfortable for children of all ages. Although NasalClear® has greater suction power than a manual aspirator, it is still gentle enough to use on newborns.

It comes apart for easy and thorough cleaning and is dishwasher safe. NasalClear® includes a plastic collection cup that helps you evaluate your baby's level of congestion. Also, the aspirator plays 12 different children's tunes to help distract the baby while in use.

It requires AA batteries (not included).

Model #BR140

Finally, a solution!

By **texroja** from **Dallas, TX** on **12/16/2007****Bottom Line:** Yes, I would recommend this to a friend

My son used to laugh when I used the bulb syringe to remove daily mucus, but it was traumatic for both of us when the real congestion needed to be cleared. I thought this product looked like a quicker and more effective way to clear his nose, but I was concerned about some reviews
